

Little Bells Newsletter

Week Ending 23.03.2018

Badge Winner - Dair Seed

This week we have started talking about spring time, and the changes we will be seeing outdoors (hopefully if this weather improves!) We have talked about the animals we see at spring time, lambs, chicks and calves. The children will get to see the lambs and chicks at Mrs Brown's farm when we visit.

For Welly walk Wednesday we completed a Easter Egg treasure hunt and the children found eggs with clues in to find a chocolate lolly. The children made a basket to take a chick home and talked about what they wanted to do in the holidays.

For golden time we made Easter nest cakes that the children got to eat at snack time.

After the break our topic will be; Our World and Beyond which will cover space, the past, technology, the artic and the desert. We have arranged for some people to come in and do talks for the children.

Trip letters have been sent home this week. Please can you return the slip and £10 by the end of the first week back if you wish for your child to go on the trip.

We have had our playground printed and it looks amazing. It contains numbers, shapes, phonics and a track for the bikes. The children have enjoyed playing games on it and it has really brightened up the outside area. Over the holidays we are hoping to add a vegetable garden, and add more areas.

Enjoy the holidays; we are back to school on Monday 9th April.

Mrs Drugan
